## Morso 6148 Conv. Wood Stove **\$2,695**

### **Well-designed classic wood stove with beautiful curves**

Comprising of 4 models, hearth-mounted, pedestal and wall-mounted, the 6100 wood stove is simple in design and timeless in style, featuring a serene 'wholeness' of clean lines, hidden hinges and functionality.

We have worked hard to combine our long stove tradition with modern innovation. The 6100 design is complete in every sense; its form, construction and cast iron components blend natural together, fitting in with our basic philosophy to keep things simple.

Morsø 6148 wood stove stands like a sculpture on its pedestal. A stove with a timeless and minimalist design, and a large glass door that provides an excellent view of the dancing flames.
